DACHAU. Most people could only imagine what it was like to be a prisoner there. Now, in this one of a kind video experience, you can experience it for yourself ... first-hand.

This video takes you into the Dachau Concentration Camp from a *first-hand point of view*. As a result, **YOU** will be marched through the iron front gates. **YOU** will walk across the main compound past the guard towers. **YOU** will enter the barracks and climb into the prisoners' bunks. **YOU** will enter the gas chamber and relive what it was like to be a prisoner at Dachau ... just like it was you all along.

TRAIN IN ONE CLASS OR IN SIX CLASS/VIDEO SECTIONS

INTRODUCTION TO EMPATHY	9:00 MINUTES
GOING TO DACHAU	11:30 MINUTES
THE BARRACKS	8:00 MINUTES
THE GAS CHAMBER	7:30 MINUTES
LIBERATION	5:30 MINUTES
CLOSING: EMPATHY	2:30 MINUTES
EXERCISES	15 MINUTES
TOTAL RUNNING TIME	60:00 MINUTES

Therefore, instructors can train in as little as **2:30 minutes** or for as long as they want with the teaching materials that come with the video.

Approved for 1 Hour of HRCI and SHRM recertification credits.

TEACHING/STUDY MATERIALS

With the Study Materials, instructors will find a wealth of resources for them to use teach this subject matter and put their students and attendees in the place of a Dachau prisoner, including:

- Narrative Handouts explaining each section of the video tour through Dachau.

- Over 50 Instructor and Group Discussion Questions.
- 15 separate Prisoner Identification Sheets for the students and attendees to assume the identity of real former Dachau prisoners.
- Special Teaching Section for Religious Study and Religion Class.
- Handout materials explaining the neurology of "Empathy" and "Mirror Neurons," as well as materials explaining the root cause of "Bigotry" and "Intolerance," which is "Objectification." Power Point slides are included to help illustrate the neurological processes that occur in human beings whenever they feel empathy for others.
- Handout materials and Power Point slides reviewing and explaining the root cause of "Bigotry and Objectification."

All of these materials are written in WORD for the instructor's easy editing. Also, none of the Power Point slides have been encrypted or password protected, so instructors can edit them however they want for use in class.

The idea here is very simple:

This program is designed to not only take you into Dachau first-hand, but it is designed to give instructors all the program materials they need to teach their students or attendees very thoroughly on this topic with very little or no additional development needed.

Therefore, this program is appropriate for:

- Any organization wanting to teach their employees or members about "Tolerance," "Diversity," and "Empathy,"
- Religion class and
- Religious organizations, such as churches, synagogues, mosques, and other religions to teach their members about "Tolerance," "Diversity," and "Empathy,"

I hope you enjoy using this very unique learning experience in your organization.
