HOW CAN YOU HEAL YOUR BRAIN AND IMPROVE OR MAYBE EVEN CURE MENTAL CONDITIONS?

Scott's was diagnosed with PTSD. His son was born with Asperger's Autism. Traditional psychiatric care alone was not helpful, even though they sought the best care the medical profession could offer at that time.

Devastated by this news, Scott's looked for better answers. In 2008, they both went to the Amen Clinic to undergo nuclear SPECT brains scans, which included over six hours of intake data for each of them.

With the information they were given from the Amen Clinics, in addition to hundreds of hours of research Scott conducted over the next several years, they changed entire lifestyles. In August 2020, they returned to the Amen clinics for another set of scans in order to mark their progress.

Both of their brains showed at least 75% to 85% improvement. In fact, Scott's follow up scans showed that his OCD was gone. It had been cured.
